I'm a self-taught software developer passionate about React and React Native. I excel in UI design and API integration, constantly seeking new challenges to enhance my skills. I enjoy collaborating to create top-notch, user-centric apps in dynamic settings.

WORK EXPERIENCE

Applaudo Studios

(ago 2022 - mar 2023)

React Native Developer

- Build and implement user interfaces using React and React Native frameworks. This involved writing clean, efficient, and maintainable code to create interactive components and screens.
- Collaborated with designers and product teams to transform design mockups and wireframes into fully functional UI components and mobile app screens.
- Worked with back-end developers to integrate front-end code with server-side APIs, ensuring seamless data transfer and functionality.
